The Moshe Dayan Center for Middle Eastern and African Studies

The Moshe Dayan Center for Middle Eastern and African Studies seeks to contribute by research, documentation, and publication to the study and understanding of the modern history and current affairs of the Middle East and Africa. The Center is part of the School of History and the Lester and Sally Entin Faculty of Humanities at Tel Aviv University.

Teaching and Research Aids Series

The reference works published in this series serve researchers specializing in the modern Middle East and Africa. The series includes mainly bibliographies, catalogues and indexes of research sources, collections of documents and handbooks.

The Compiler

This catalogue was compiled by Haim Gal, curator of the Press Archive.

Preface

The Press Archive of the Moshe Dayan Center is probably the most extensive collection of contemporary (post-1950) Middle Eastern press in the world. The collection contains an enormous variety of the daily, weekly and monthly newspapers and periodicals from all the Arab countries, Iran and Turkey.

Over the years, the researchers of the Moshe Dayan Center and many other scholars from Israel and other countries have found the systematic and discriminating use of the press to be an invaluable tool for the study of the political, social and intellectual history of the contemporary Middle East. This is especially true given the general lack of access to Middle Eastern official archives for the study of the post-Second World War era.

This catalogue of the Egyptian press is the fourth in a series covering the press of the various countries of the region. (Previous catalogues have covered Jordan, Syria, and Iraq.) Our intention is that these catalogues will provide the necessary information about the collection to the international community of scholars, in the hope that an ever-increasing number of our colleagues from the Middle East and elsewhere will be encouraged to make use of the collection for their own research.

The Egyptian catalogue records all holdings through 1998, and is organized in two lists. Each list is arranged alphabetically according to the Arabic spelling of the publication's title. The dividing principle is as follows:

List A includes newspapers and periodicals published in Egypt. This includes a very large number of holdings published over the last century, the vast majority of them since the 1954 Revolution.

List B includes newspapers and periodicals of Egyptian provenance published in other countries, including the Arab world.

The following additional points should be noted:

- Place of publication is the present borders of Egypt unless otherwise indicated in the last column.
- Frequency of publication is given if such information is known.
- The notation "s" means that the publication is represented in the holdings by only a few single issues.
- There might be editorial or publishing or other relationships between several of the catalogued publications. When several publications bear the same title, a distinguishing feature of each is given in the last column, if possible.
- The catalogue includes publications in Arabic, English, French, German and Italian.
- The reports of the Central Bank of Egypt, official statistical bulletins and some official economic publications, are catalogued separately in the *Catalogue of Periodicals in the Moshe Dayan Center Library* (1996).

I should like to thank those who assisted in the compilation of this catalogue, and who went back to check and double-check the original holdings: Vered Levy, Frank Levy, and Menashe Eini. Lydia Gareh prepared the catalogue for publication with her customary exactitude, and Elena Lesnick speeded the catalogue to production.

Haim Gal
Curator, Press Archive
