Preface

The Press Archive of the Moshe Dayan Center is probably the most extensive collection of contemporary (post-1950) Middle Eastern press in the world. The collection contains an enormous variety of the daily, weekly and monthly newspapers and periodicals from all the Arab countries, Iran and Turkey.

Over the years, the researchers of the Moshe Dayan Center and many other scholars from Israel and other countries have found the systematic and discriminating use of the press to be an invaluable tool for the study of the political, social and intellectual history of the contemporary Middle East. This is especially true given the general lack of access to Middle Eastern official archives for the study of the post-Second World War era.

This catalogue of the Jordanian press is the first of a planned series covering the press of the various countries of the region. Our intention is that this and future catalogues will provide the necessary information about the collection to the international community of scholars, in the hope that an ever-increasing number of our colleagues from the Middle East and elsewhere will be encouraged to make use of the collection for their own research.

For the reader's convenience, the Jordanian catalogue is organized in two lists. Each list is arranged alphabetically according to the Arabic spelling of the publication's title. The dividing principle is geo-political, as follows:

List A includes newspapers and periodicals published in the East Bank during the period 1949-1995, and those published in the West Bank under Jordanian rule during the period 1949-1967.

List B includes newspapers and periodicals of Jordanian provenance published in other countries, including the Arab world.

The following additional points should be noted:

- Place of publication is the East Bank of Jordan (the present borders of the Hashemite Kingdom) unless otherwise indicated in the last column.
- Frequency of publication is given if such information is known.
- The notation “s” means that the publication is represented in the holdings by only a few single issues.
- There might be editorial or publishing or other relationships between several of the catalogued publications. When several publications bear the same title, a distinguishing feature of each is given in the last column, if possible.
- The annual report and statistical bulletins of the Central Bank of Jordan, as well as other official Jordanian economic publications, are catalogued separately in the *Catalogue of Periodicals in the Moshe Dayan Center Library* (1996).

I should like to thank those who assisted in the compilation of this catalogue, and who went back to check and double-check the original holdings: Vered Levy, Frank Levy, and Menashe Eini. Lydia Gareh prepared the catalogue for publication with her customary exactitude, and Elena Lesnick speeded the catalogue to production.
